Hi [REDACTED]

Please see attached information regarding borehole drills for Dalradian.
This information is also uploaded. I have however not sent an additional consultee.

Regards

[REDACTED]

Subject: RE: LA10/2018/1471/PAD queries

Hi [REDACTED]

Please see our response below in relation to the query from NIEA. We have attached a copy of

Figure 1 indicating the location of the shallow dug well.

In relation to the shallow dug well:

1. The well can be used for agricultural use and for domestic supply. Please note that local residences are provided by a mains public water supplies (Source: NIW)
2. The well coordinates are 255998E 346541N and it is c. 400 metres from the permitted development, see Figure 1.
3. The shallow dug well is at 185.1m OD, and is located across slope from the proposed exploration drilling area, see Figure 1 attached, and groundwater flows will be downslope / gradient towards the Owenkillew River. Therefore, it is not considered that the well or shallow groundwater supply to the well will be impacted by the proposed exploration drilling.

If you have any further queries in relation to the shallow dug well please contact us.

Kind Regards,

[Redacted]
