Hi [REDACTED]

Thanks for the clarification. Have spoken to NIEA and don't believe the GW tech memo needs further update.

Content for all these memos to be packaged into one report and this is what will go public at a later point. Just need to bear in mind once NIEA 's consultation response goes on the public portal, given the 5 tech memos will have assisted in informing some of that response's comments, we may be asked under FOI for release of the 5 tech memos by any interested party. Its however something only necessary to discuss if an FOI request ever materialises.

Regards,

NOTE: This email chain appears to contain email from outside Golder

Hi [REDACTED]

Currently, we are not planning on re-issuing it as no changes were requested.

If there are any particular items that need to be more definitive within it, we can update and re-issue if needed.

It is our intention that these memos won't be made public as they stand, we intend to integrate all review data into one report for simplicity and it will be that report which will ultimately be issued for the wider audience, hence the groundwater memo will be included within this report. Let me know if we need to do something with the groundwater memo at this stage.

Regards

EXTERNAL EMAIL

Good morning [REDACTED]

Thank you for providing these three update technical memos, I will share with NIEA.

Just checking is the Ground Water Modelling review technical memo is to be resent, or does the memo sent on 27th Jan site stand ?

Regards,

[REDACTED]

Dear all

Please find attached the three updated water review technical memos covering Seepage, Surface Water Quality and Geochem. The Water Balance review technical memo is undergoing final senior internal review and will follow soon.

Best wishes
