Subject: LA10/2017/1249/F: Drinking water supplies

Hi [REDACTED]

Following on from our call I am requesting water quality results for 3 water supplies in the area of our proposed mining project. The DWI response dated 9th March 2021 (attached) highlighted 3 wells (on page 8) in the surrounding areas. I am looking for the results of sampling taken from these supplies. As stated, the supply FO012Y is no longer in use as of March 2019 but I would be grateful if you send on the last 4 sampling results for this location and for wells FO013Y and FO017.

Regards
