Good afternoon [REDACTED]

I can confirm that the Drinking Water Inspectorate monitor the registered private water supply at FO013Y by taking samples from the residential property indicated with the red marker on your attached map. We have updated the co-ordinates for this site accordingly. Apologies for any confusion.

Kind regards,

[REDACTED]

Subject: Well coordinates confirmation

Hi [REDACTED]

I'm looking for confirmation of the sampling location of borehole FO013Y. Your records show it to be 260071E 385327N. When I look at its location on an aerial view (in green attached) it shows its location to be agricultural sheds. I'm wondering if this is the location at which you take your sample or is it at the red location which is a residential property nearby that may use a well for its water supply.

Regards
