10 September 2025

Dear [REDACTED]

Environmental Information Regulations 2004

With regard to your request for information received by the Department on 13 August 2025 which sought the following information:

Covering the 10 year period 2015-2024, please provide the following information for each such site that NIEA is aware has contained asbestos:

Location of site:

Date at which NIEA became aware of it:

Amount of asbestos discovered:

Sustainability at the heart of a living, working, active landscape valued by everyone.

If you are deaf or have a hearing difficulty you can contact the Department via the Next Generation Text Relay Service by dialling 18001 + telephone number.

Action taken by NIEA to date:

Cost of clean up:

How much of clean up costs have been recouped:

Is asbestos still on site?:

I can advise that the Department has completed its search and can confirm that it holds the information you requested.

Annex 1 contains information on: location of site, date NIEA became aware of the presence of asbestos, amount of asbestos discovered, action taken by NIEA, how much clean up costs have been recouped and if the asbestos is still believed to be on the site.

To identify the cost of each clean up would require resources to review over 152 entries and falls under Regulation 12(4)(b) manifestly unreasonable. An associated Public Interest Test has been conducted and is attached for your information at Annex 3

An explanation of how the estimated cost was calculated for your request is provided in the table below. It should be noted, this is only a synopsis of the information held by the Department potentially falling within the scope of your request. It is worth noting this is a conservative estimate of the total cost to facilitate your request.

Estimated number of records falling within scope of your request.	At an average of 35 minute per record to review. (Minutes)	Total estimated cost. (Minutes to Hours X £25)
152	5,320	£2,215

The Department has provided details in Annex 2 of total cost of asbestos clean up, by year, incident numbers and weight.

If you require any clarification, believe that any part of your request has been overlooked, misunderstood or misinterpreted, please contact me in the first instance to see if it is a matter that can be resolved.

Sustainability at the heart of a living, working, active landscape valued by everyone.

If you are deaf or have a hearing difficulty you can contact the Department via the Next Generation Text Relay Service by dialling 18001 + telephone number.

If you are unhappy with the manner in which your request for information has been handled or the decision to release/withhold information, you have the right to request a formal review by the Department.

If you wish to do so, please contact The Review Section either by e-mailing daera.informationmanager@daera-ni.gov.uk or by post at The Department of Agriculture, Environment and Rural Affairs, Data Protection & Information Management Branch, Floor 2, Jubilee House, 111 Ballykelly Road, Ballykelly, Limavady BT49 9HP, within two months from the date of this letter.

If after such an internal review you are still unhappy with the response, you have the right to appeal to the Information Commissioner at Wycliffe House, Water Lane, Wilmslow, CHESHIRE, SK9 5AF, who will undertake an independent review of the Department's decision.

Yours sincerely,

[Redacted signature]

Annex 2

Details of Asbestos lifted by NIEA- 2018 to 2025

Year	Incident Numbers	Weight (tonnes)	Cost (£)
2018-19	33	97.59	65,811
2019-20	22	10.94	37,633
2020-21	31	11.28	38,346
2021-22	28	6.83	40,992
2022-23	26	119.86	91,762
2023-24	18	37.90	39,555
2024-25	10	1.14	10,099

Sustainability at the heart of a living, working, active landscape valued by everyone.

If you are deaf or have a hearing difficulty you can contact the Department via the Next Generation Text Relay Service by dialling 18001 + telephone number.

Annex 3

Public Interest Test – EIR

Reference Number – DAERA/25-439

Requested Information:

Covering the 10 year period 2015-2024, please provide the following information for each such site that NIEA is aware has contained asbestos:

Cost of clean up

Exemption / Exception under consideration

Regulation 12 / Section (4) (b)

Reasons why the public interest would favour disclosure:

- The right of the public to have access to information.

Reasons why the public interest would favour withholding:

- The disclosure would place an unreasonable burden on the Department which would adversely disrupt its normal running.
- The disclosure would place an unreasonable cost on the Department.

Conclusion

Following consideration of the Public Interest Test the Department has decided that the public interest in maintaining the exemption outweighs the public interest in disclosure.
