Acton Environmental Ltd
Acton Farm
Acton Road
Poyntzpass
Co Armagh

Dear Sir / Madam,

The Quarterly Waste Return for the above site for the period 1st January to 31st March 2023 is due to be returned by the end of April 2023. If you have already submitted this return, please ignore this reminder.

A revised returns form should be downloaded from the DAERA website at: www.daera-ni.gov.uk/publications/waste-summary-returns-form-and-guidance

Guidance on how to complete the form and the associated coding can also be found at the link above.

We are aware that covid-19 containment measures might make it difficult for you to submit your quarterly waste return within the usual 1-month window, i.e. by the end of April. If you are delayed for this reason, please reply by email (waste.returns@daera-ni.gov.uk) giving us a short summary of the general circumstances for the delay and these will be treated with understanding and consideration.

Notes:

1. Where waste is being exported from Northern Ireland please ensure that the destination entered in your return reflects the location of the receiving waste facility. We have noted during

data crosschecks that in some cases the destination has been incorrectly recorded in returns as the location of the broker rather than the destination facility.

1. **2.** From 1st July 2014 an additional reporting requirement has been added to the 'Waste Removed from Site' sheet of the Quarterly Waste Return. If you produce a product from waste you should now record this tonnage in your return. Materials which were previously waste but now meet a product specification should be coded with a 6 digit product code beginning 99 – please see the revised guidance for more information before submitting such data on the revised form (see links above).

The Authorisation Reference Number drop down list has been updated to include new licences, exemptions and permits, however if you have any queries about the list please contact us.

Please remember that this Microsoft Excel form needs to be returned by e-mail as an attached Excel file rather than posted. If this is not possible for your site, please contact us to discuss.

If you have any questions or queries, please do not hesitate to get in touch.

Yours sincerely,

Waste Returns

Subject WML 30/04/T LN/17/04/T - REMINDER; April to June 2025 Waste Summary Returns due

WML 30/04/T LN/17/04/T

Acton Environmental Ltd
Acton Farm
Acton Road
Poyntzpass
Co Armagh

Dear Sir / Madam,

The Quarterly Waste Return for the above site, for the period 1st April to 30th June 2025, is due to be returned by the end of July 2025. If you have already submitted this return and believe that you have received this reminder in error, then please contact us using the details at the end of this message.

A revised returns form should be downloaded from the DAERA website at: www.daera-ni.gov.uk/publications/waste-summary-returns-form-and-guidance

Guidance on how to complete the form and the associated coding can also be found at the link above.

Notes:

1. Please note updated postal address below.
2. Where waste is being exported from Northern Ireland, please ensure that the destination entered in your return reflects the location of the receiving waste facility. We have noted during data crosschecks that in some cases the destination has been incorrectly recorded in returns as the location of the broker rather than the destination facility.
3. From 1st July 2014 an additional reporting requirement has been added to the 'Waste Removed from Site' sheet of the Quarterly Waste Return. If you produce a product from waste, you should

now record this tonnage in your return. Materials which were previously waste but now meet a product specification should be coded with a 6-digit product code beginning 99 – please see the revised guidance for more information before submitting such data (see link above).

The Authorisation Reference Number drop down list has been updated to include new licences, exemptions and permits, however if you have any queries about the list, please contact us.

Please remember that this Microsoft Excel form needs to be returned by e-mail as an attached Excel file rather than posted. If this is not possible for your site, please contact us to discuss.

If you have any questions or queries, please do not hesitate to get in touch.

Yours sincerely,

Waste Returns

Dear Sir / Madam,

The Quarterly Waste Return for the above site for the period 1st January to 31st March 2023 is due to be returned by the end of April 2023. If you have already submitted this return and believe that you have received this reminder in error, then please contact us using the details at the end of this message.

A revised returns form should be downloaded from the DAERA website at: www.daera-ni.gov.uk/publications/waste-summary-returns-form-and-guidance

Guidance on how to complete the form and the associated coding can also be found at the link above.

We are aware that covid-19 containment measures might make it difficult for you to submit your quarterly waste return within the usual 1-month window, i.e. by the end of April. If you are delayed for this reason, please reply by email (waste.returns@daera-ni.gov.uk) giving us a short summary of the general circumstances for the delay and these will be treated with understanding and consideration.

Notes:

1. Where waste is being exported from Northern Ireland, please ensure that the destination entered in your return reflects the location of the receiving waste facility. We have noted during data crosschecks that in some cases the destination has been incorrectly recorded in returns as the location of the broker rather than the destination facility.
2. From 1st July 2014 an additional reporting requirement has been added to the 'Waste Removed from Site' sheet of the Quarterly Waste Return. If you produce a product from waste, you should now record this tonnage in your return. Materials which were previously waste but now meet a product specification should be coded with a 6-digit product code beginning 99 – please see the revised guidance for more information before submitting such data on the revised form (see links above).

The Authorisation Reference Number drop down list has been updated to include new licences, exemptions and permits, however if you have any queries about the list then please contact us.

Please remember that this Microsoft Excel form needs to be returned by e-mail as an attached Excel file rather than posted. If this is not possible for your site, please contact us to discuss.

If you have any questions or queries, please do not hesitate to get in touch.

Yours sincerely,

1. Where waste is being exported from Northern Ireland, please ensure that the destination entered in your return reflects the location of the receiving waste facility. We have noted during data crosschecks that in some cases the destination has been incorrectly recorded in returns as the location of the broker rather than the destination facility.
2. From 1st July 2014 an additional reporting requirement has been added to the 'Waste Removed from Site' sheet of the Quarterly Waste Return. If you produce a product from waste, you should now record this tonnage in your return. Materials which were previously waste but now meet a product specification should be coded with a 6-digit product code beginning 99 – please see the revised guidance for more information before submitting such data (see links above).

The Authorisation Reference Number drop down list has been updated to include new licences, exemptions and permits, however if you have any queries about the list, please contact us.

Please remember that this Microsoft Excel form needs to be returned by e-mail as an attached Excel file rather than posted. If this is not possible for your site, please contact us to discuss.

If you have any questions or queries, please do not hesitate to get in touch.

Yours sincerely,

Waste Returns

Dear Sir / Madam,

The Quarterly Waste Return for the above site, for the period 1st January to 31st March 2024, is due to be returned by the end of April 2024. If you have already submitted this return, please ignore this reminder.

A revised returns form should be downloaded from the DAERA website at: www.daera-ni.gov.uk/publications/waste-summary-returns-form-and-guidance

Guidance on how to complete the form and the associated coding can also be found at the link above.

Notes:

1. Please note updated postal address below.
2. Where waste is being exported from Northern Ireland, please ensure that the destination entered in your return reflects the location of the receiving waste facility. We have noted during data crosschecks that in some cases the destination has been incorrectly recorded in returns as the location of the broker rather than the destination facility.
3. From 1st July 2014 an additional reporting requirement has been added to the 'Waste Removed from Site' sheet of the Quarterly Waste Return. If you produce a product from waste, you should now record this tonnage in your return. Materials which were previously waste but now meet a product specification should be coded with a 6-digit product code beginning 99 – please see the revised guidance for more information before submitting such data (see link above).

The Authorisation Reference Number drop down list has been updated to include new licences, exemptions and permits, however if you have any queries about the list, please contact us.

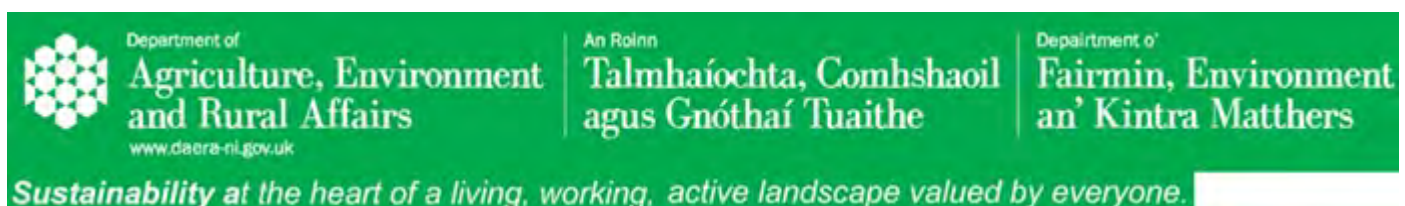

Please remember that this Microsoft Excel form needs to be returned by e-mail as an attached Excel file rather than posted. If this is not possible for your site, please contact us to discuss.

If you have any questions or queries, please do not hesitate to get in touch.
