

Public Interest Test –EIR

Reference Number – DAERA/26-591

Requested Information Request

for update on:

1. WR 3/25/0910 - Raw sewage discharge Ballyclare WWTP on 27 July 2025.
2. WR 3/25/0117 - Fish Kill on 6 October 2025 in the vicinity of Ballyclare WwTW.

Exception under consideration

Regulation 12(5)(b) – The course of justice and inquiries exception

Reasons why the public interest would favour disclosure:

- Access to official information can improve public confidence and trust and Departments have a duty to operate transparently.
- Regulation 12(2) requires the Department of Agriculture Environment and Rural Affairs (DAERA) to apply a presumption in favour of disclosure.

Reasons why the public interest would favour withholding:

- Some of the requested information is linked to ongoing enforcement actions, in line with the DAERA enforcement processes, and is being treated as if 'sub judice' so as not to influence due process.

Conclusion

Following consideration of the Public Interest Test the Department has decided that on balance, the public interest in maintaining the exemption does outweigh the public interest in disclosing the available information. This is due to the effects any disclosure of correspondence regarding enforcement actions would potentially have on ongoing formal legal proceedings.
