

## PERSONAL LICENCE 2389

### issued under Animals (Scientific Procedures) Act 1986 (as amended)

In pursuance of the powers vested in it by the above Act, the Department of Health hereby licences:

|                                                                                                                                     |
|-------------------------------------------------------------------------------------------------------------------------------------|
| <b>Personal Licence Holder</b><br><div style="background-color: black; width: 100px; height: 15px; margin-top: 5px;"></div>         |
| <b>Address (Primary Establishment)</b><br><div style="background-color: black; width: 150px; height: 60px; margin-top: 5px;"></div> |

to apply regulated procedures of the category or categories specified in column a of the attached Schedule to the types of animals in Column (b) of the attached Schedule subject to the restrictions and provisions contained in the Act, and subject also to the limitations and conditions contained in this licence and to such other conditions as the Department of Health may from time to time prescribe.

| Date granted               | Expiry date               |
|----------------------------|---------------------------|
| 10 <sup>th</sup> June 2026 | 9 <sup>th</sup> June 2031 |

## Schedule

The techniques and animals for which you have authority.

| Category | a. Procedure                                                                                                                                                                   | (b) Animal [s] |
|----------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------|
| A        | Minor/minimally invasive procedures not requiring sedation, analgesia or general anaesthesia                                                                                   | Badgers        |
| B        | Minor/minimally invasive procedures involving sedation, analgesia or brief general anaesthesia plus-surgical procedures conducted under brief non-recovery general anaesthesia | Badgers        |

## Personal Licence - Additional Conditions

No additional conditions

## Granted Authority

This licence does not authorise the licensee to perform a regulated procedure on an animal **unless** the procedure is applied as part of a programme of work specified in a project licence, authorising, as part of that programme, the application of a regulated procedure of that description to an animal of that type, which is performed at a place specified therein.

This licence shall be periodically reviewed by the Department of Health (on or before the identified expiry date) and will remain in force until revoked by that Department.

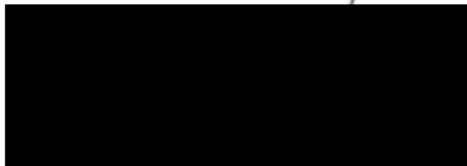

## For Information:

If you cease to work at the establishment given as the primary availability on your licence, and you wish to work at another establishment, you must request an amendment via the new primary availability establishment before starting work there.

The Holder of the Establishment Licence listed above may request that the Department revokes this licence if you cease to work there.

## **CORPORATE / INDIVIDUAL ESTABLISHMENT LICENCE 5037**

### **issued under the Animals (Scientific Procedures) Act 1986 (as amended)**

In pursuance of the powers vested in it by Section 2C of the above Act, the Department of Health hereby licences:

DAERA Jubilee House  
111 Ballykelly Road  
Ballykelly  
Limavady  
BT49 9HP

to carry on an undertaking involving:

- a) the applying of regulated procedures to protected animals

subject to the restrictions and provisions contained in the Act and the conditions contained in this licence and to such other conditions as the Department of Health may from time to time prescribe.

The named person responsible for ensuring compliance, the veterinary surgeon(s), person(s) responsible for the day-to-day care of animals, information officer, training and competency officer(s) and the legally responsible person are specified in the Schedule(s).

The areas which may be used, the suitability for specified species and the holding / use suitability are specified in the Schedule(s).

In accordance with section 15A(2)(b), any additional methods of killing relevant protected animals which are permitted are specified in the Schedule.

In accordance with section 17A, circumstances under which setting free and rehoming of protected animals is permitted are specified in the Schedule.

This licence shall be in force until revoked by the Department of Health

## **Granted Authority**

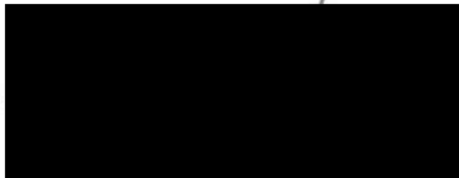

This licence has been granted based on the information provided during the application process.

This **PROJECT LICENCE** permits the licence holder to carry out a programme of scientific procedures on living animals under the **ANIMALS (SCIENTIFIC PROCEDURES) ACT 1986** at place(s) specified on the attached schedule.

The project licence holder may carry out the specified programme of work, subject to the restrictions and provisions contained within the Act and any limitations and conditions specified in this licence or by the Department of Health.

This licence does not authorise the holder or any other person to carry out procedures on any animals unless they hold an appropriate personal licence issued under the Act.

The project licence holder is responsible for the overall implementation of the programme of work and for ensuring that the programme is carried out in compliance with the conditions of this licence.

Handling Instructions: Contains personal sensitive information, subject to confidentiality requirements under the Data Protection Act. All Government information may be subject to an FOI request and subsequent assessment.

## Granted Authority

This licence has been granted based on the information provided during the application process. This has now been attached as the schedule to this licence.

This licence authorises, only:

- Work to meet the specified project aims and objectives
- Use of specified animals and procedures
- Severity of procedures as specified
- Work at the specified places

as detailed on the attached schedule.

## Retrospective Assessment

The Department of Health has determined that a retrospective assessment of this licence is not required.

## Additional Conditions

Note that the licence is subject to Standard Conditions (attached) [and is subject to the following Additional Conditions:]

### 1. POLE Additional Condition

Before starting any procedures at a place which is not a licensed establishment (POLE) but is authorised under part B of the schedule, the inspector must be notified, in order that the inspector may be present if s/he wishes. The minimum period of notice to be given, the information to be provided and the means of notification shall be agreed in writing with the inspector at least 7 days before the commencement of regulated procedures in this project.

### 2. Disapply of 7-day notification for the first 7-days of this PPL

The Department of Health consents to disapply the 7-day requirement for POLE notification to allow immediate use of all procedures on this licence. This applies only to the first 7-days of this granted project licence and the POLE notification condition must be applied at all other times.
