EXPORT OF PORCINE SEMEN TO JAPAN

OWNER'S/EXPORTER'S DECLARATION

I,

(Name and address)

hereby declare that with reference to Health Certificate Number:

1. The donor boars have not been vaccinated against PRRS;
2. While staying at the Approved Semen Collection Centre the donor boars have not been used for natural breeding;
3. At the Approved Semen Collection Centre, there have been no confirmed clinical, microbiological and serological cases of brucellosis, PRRS, PED and TGE for at least 6 months immediately before commencement of the collection of the exported semen;
4. The donor boars have been quarantined in approved premises under official veterinary supervision for at least 30 days prior to entering the Approved Semen Collection Centre where they remained clinically healthy;
5. The donor boars have been isolated from other animals that are not of the same health status in the Approved Semen Collection Centre;
6. The donor boars were free from clinical signs of infectious or contagious diseases at the time of semen collection.
