

Tuberculosis: Statistics for June 2026

Disease statistics

Annual herd incidence over the last 12 months (%)	9.51	
Annual herd incidence over the last 13-24 months (%)	10.80	
2025 Herd Incidence (%)	9.90	
Annual animal incidence over the last 12 months (%)	1.065	
Annual animal incidence over the last 13-24 months (%)	1.153	
2025 Animal Incidence (%)	1.068	
Confirmed TB herd prevalence in last 12 months (%)	13.77	for Month = February 2026
Confirmed TB herd prevalence in last 13-24 months (%)	14.91	for Month = February 2026
Confirmed TB herd prevalence in 2025 (%)	14.05	
Confirmed TB animal prevalence in last 12 months (%)	0.698	for Month = February 2026
Confirmed TB animal prevalence in last 13-24 months (%)	0.684	for Month = February 2026
Confirmed TB animal prevalence in 2025 (%)	0.704	

TB skin test reactors

No. of TB reactor animals since start of year	9,154
No. of reactor animals in the previous 12 months	18,764
No. of reactor animals in the previous 13-24 months	20,507

Herds & animals tested

No. herds with herd test during last 12 months	21,300
No. herds with herd test during last 13-24 months	21,570
No. herds with herd test during 2025	21,386
No. animals TB tested in previous 12 months	1,762,327
No. animals TB tested in previous 13-24 months	1,779,166
No. animals TB tested in 2025	1,768,644
