

Northern Ireland Plant Health Label Scheme

Arrangements under the Windsor Framework allow for consignments of permitted plants for planting, seed potatoes, used machinery and certain vehicles operated for agricultural or forestry purposes to be imported from Great Britain to Northern Ireland without the requirement for a Phytosanitary Certificate. These arrangements are known as the Northern Ireland Plant Health Label Scheme (NIPHL Scheme).

The goods referred to above can also move into Northern Ireland accompanied by a Phytosanitary Certificate where it may be intended to move them onwards to the EU.

Information from both Defra and DAERA outlining the respective GB and NI arrangements and prerequisites for moving goods under the NIPHL Scheme are available on the relevant websites.

If you wish to receive goods under the NIPHL Scheme, you must be registered with DAERA Plant Health as a Professional Operator and agree to comply with the terms and conditions of the NIPHL scheme.

NI Plant Health Label Scheme (NIPHL) Declaration

I am a DAERA Registered Professional Operator and agree to comply with the NIPHL Scheme requirements for moving individual NIPHL Scheme consignments or goods within mixed loads. These requirements state that:

1. NIPHL goods must be dispatched from a Defra Registered Authorised Professional Operator in GB and can only be received by a DAERA Registered Professional Operator in NI.
2. Consignments must have a NIPHL label attached (i.e. to the smallest applicable trade unit).
3. Consignments must be pre-notified under CHED-PP by the DAERA Registered Professional Operator.
4. All NIPHL goods must be presented for Point of Entry checks, in line with Official Controls Regulations requirements and Windsor Framework arrangements.
5. Surveillance measures and post-movement assurance checks will be carried out to ensure that consignments moved under the NIPHL Scheme will not subsequently be moved to a Member State. Professional Operators in NI will be required to keep appropriate records.

Sustainability at the heart of a living, working, active landscape valued by everyone.

I understand, as a DAERA Registered Professional Operator, that by signing this declaration I agree my details can be shared with other UK competent authorities.

I understand that non-compliance with NIPHL arrangements and applicable legislation could result in a range of enforcement actions that include detention, re-export and/or destruction notices, modification, suspension or revoking of the authorisation of the DAERA Professional Operator Registration.

I agree to comply and co-operate with the requirements, terms, and conditions of the NIPHL scheme.
