H [REDACTED]

As well as the equality consultee list from the intranet <http://nics.intranet.ni.gov.net/dsara/documents/section-75-consultation-list> (some of these will bounce back). Last time we made sure all the MLA's received it and the NI political parties (these may already be in the section 75 consultation list).

Here's another few I have - these would be my main contacts. I don't have [REDACTED] emails anymore but we can hopefully get these online from British Heart Foundation NI or LinkedIn:

Clean Air Strategy Pre-Consultation Engagement Plan

28 May 2026

Introduction

Pre-consultation stakeholder engagement was discussed at the 16 December 2025 Clean Air Strategy Clinic. It was agreed at the clinic that pre-consultation stakeholder engagement would be needed to 'warm-up' stakeholders to the content of the strategy, prior to the main public consultation.

The district councils are an important stakeholder as they have statutory obligations under air quality legislation and have actions assigned to them in the Clean Air Strategy. To date, these actions have not been discussed with the district councils.

Northern Ireland health stakeholders are also important and have had a role in shaping this strategy. These health stakeholders, and a number of other important stakeholders, will also need the opportunity to be involved in pre-consultation engagement.

Officials suggest the following engagement:

Two engagement sessions to share the contents of the draft strategy

- **One engagement session for the District Councils before the end of June**
An hour and a half meeting with the councils. This session will be operational in nature and will be an open discussion with the district councils and AEQ officials. This session will only be open to the district councils.
- **One engagement session for the key stakeholders (HANI, PHA, possibly EA, NILGA, children and young people e.g. NICCY & Youth Assembly) before the end of July**
A one hour presentation on the contents of the draft strategy. It will be followed by some feedback/discussion with the invited stakeholders and AEQ officials. Attendance will be by invitation only.
District council staff that cannot attend the district council engagement session, may attend this session.

It is proposed that both sessions will be online given reduced availability of attendees over the summer.

Pre-consultation format

- A short slide show is proposed that will outline the strategies background, aim, goals, strategic objectives, actions and indicators.
- There will be a short Q&A session
- Officials will capture key comments
- Pre-engagement sessions will serve to manage stakeholder expectations
- No hard copies of the strategy or presentation will be shared at this stage

Feedback

Officials will review the feedback received from our stakeholder pre-consultation engagement and seek Ministerial approval on any recommended changes.

Subject: CM: Add National Allergy Strategy Group as consultee on all air consultations
Date: 20 May 2026 09:32:37
Attachments: [image001.jpg](#)

[REDACTED]

[REDACTED] and I had an excellent meeting with the National Allergy Strategy Group. As its membership includes several respiratory consultants and paediatricians, they have agreed to be added as consultees on all our AQ consultations, including PM Regs and CAS.

[REDACTED] in the email contact who will co-ordinate all our comms with the group and [REDACTED] can provide further details. Please add the NASG to your consultee lists for these consultations and [REDACTED] grateful if you could check if we have a general list and if so add them to that.

Many thanks
