

## Tuberculosis: Statistics for August 2026

### Disease statistics

|                                                         |       |                        |
|---------------------------------------------------------|-------|------------------------|
| Annual herd incidence over the last 12 months (%)       | 9.58  |                        |
| Annual herd incidence over the last 13-24 months (%)    | 10.83 |                        |
| 2025 Herd Incidence (%)                                 | 9.90  |                        |
| Annual animal incidence over the last 12 months (%)     | 1.097 |                        |
| Annual animal incidence over the last 13-24 months (%)  | 1.135 |                        |
| 2025 Animal Incidence (%)                               | 1.068 |                        |
| Confirmed TB herd prevalence in last 12 months (%)      | 13.91 | for Month = April 2026 |
| Confirmed TB herd prevalence in last 13-24 months (%)   | 14.79 | for Month = April 2026 |
| Confirmed TB herd prevalence in 2025 (%)                | 14.05 |                        |
| Confirmed TB animal prevalence in last 12 months (%)    | 0.705 | for Month = April 2026 |
| Confirmed TB animal prevalence in last 13-24 months (%) | 0.689 | for Month = April 2026 |
| Confirmed TB animal prevalence in 2025 (%)              | 0.704 |                        |

### TB skin test reactors

|                                                     |        |
|-----------------------------------------------------|--------|
| No. of TB reactor animals since start of year       | 13,033 |
| No. of reactor animals in the previous 12 months    | 19,215 |
| No. of reactor animals in the previous 13-24 months | 20,119 |

### Herds & animals tested

|                                                   |           |
|---------------------------------------------------|-----------|
| No. herds with herd test during last 12 months    | 21,298    |
| No. herds with herd test during last 13-24 months | 21,480    |
| No. herds with herd test during 2025              | 21,386    |
| No. animals TB tested in previous 12 months       | 1,752,334 |
| No. animals TB tested in previous 13-24 months    | 1,772,407 |
| No. animals TB tested in 2025                     | 1,768,644 |
