

# DAERA authorised Private Veterinary Practitioner

Information Bulletin: aPVP 01/23

Issued: 13 January 2023

**Audience:** DAERA authorised Private Veterinary Practitioners who use Traces NT

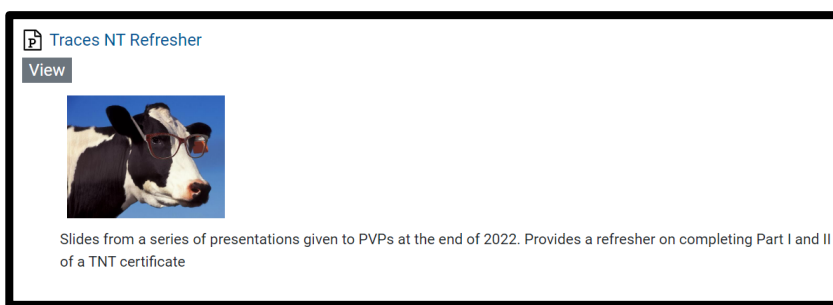

**Subject:** Refresher Training on Traces NT now available on CAFRE Moodle

## Traces NT Refresher Training

During November 2022 Trade Exports ran several webinars providing refresher training on the use of Traces NT for intra-certification. This training covered the completion of Part I and Part II of an intra-certificate. The slides from these presentations are now available on the CAFRE Moodle PVP training pages. The presentation contains a lot of useful information regarding Traces NT and is recommended for anyone using the system.

The presentation is available on both the 'Authorised Private Veterinary Certifying Officer Training' page or 'Authorised Private Veterinary Certifying Officer Training 2022' page which is the newer page created last year to host the poultry training modules. You will be able to access the presentation on either page if you have a valid Moodle log in and enrolment. Moodle can be accessed via this link [Cafre: Log in to the site](#)

The presentation is within Module 4 on each page and is entitled 'Traces NT Refresher'. The screen shot below may help you identify it. This is an optional module that anyone can complete.

If you experience any difficulties accessing the training, please contact us at:
