

DAERA Marine & Fisheries Division Marine Licensing Consultee Response Sheet

ML202216

[REDACTED] Earth Science & Heritage Officer, NIEA
Belfast BT7 2JA
18th October 2023

(Please fill out all relevant parts - Comments received may be supplied to any third party, on request.)

Please indicate if you have 'no objections' to this project.

I have no objections to this proposal. Based on the information supplied with the application, I do not believe the project as described will have a significant impact on conservation of the geological features of White Rocks Area of Special Scientific Interest (ASSI).

Under what legislation/regulations do you have comments to make?

The Environment (NI) Order, 2002 (As amended).

What specific objections do you have to this project and why?

Is there mitigation which you could recommend to offset these objections? Please specify.

Are there any European Designations affected by this project? What features are affected and how are they affected?

Do you require monitoring to be put in place?

Monitoring of potential impacts on the ASSI have been conditioned in the associated approved Planning Application LA01/2017/0539/F.

Describe this monitoring (inc. type, frequency, limits, distribution)?

Are there any timing restrictions which you would apply to the project?

Do you have a requirement for any further information to be forwarded to you?

Any other comments

Please submit completed response forms to MarineLicensingTeam@daera-ni.gov.uk
