Tuberculosis: Statistics for June 2017

Herds
- Number of herds tested (any test), by DVO
- Number of herds with herd-level test, by DVO
- Number of herds with any risk test, by DVO
- Number of herds with herd-level risk test, by DVO
- Number of herds with herd-level restricted test, by DVO

Tests Completed
- Total number of tests performed, by DVO
- Total number of animals tests, by DVO
- Total number of restricted herd tests, by DVO
- Total number of herd tests, by DVO
- Total number of individual tests, by DVO
- Total number of animals tested, by DVO

Animals
- Herds with TB reactors during month, by DVO
- Number of new reactor herds, by DVO
- Number of new reactor animals, by DVO

Summary Statistics
- Herd Prevalence
- Herd Incidence
- Animal Incidence
- Number of reactor animals by month and by DVO
- Number of new reactor herds by month and by DVO
- Total number of all reactor herds by DVO

Summary Charts
- Current Animal Incidence Chart
- Yearly Animal Incidence Chart
- Current Herd Incidence Chart
- Yearly Herd Incidence Chart

- Monthly TB reactors chart
- New TB reactor herds
- TB Herd & Animal Incidence

- Yearly Confirmed Herd Prevalence
- Current Confirmed Herd Prevalence
# Tuberculosis - Internet Monthly Statistics - June 2017

## TB Statistics

### H1. Current Herd Incidence Charts

#### Annual TB herd incidence by DVO (Southern Region)

- **N.Ireland**: 13.59% for Last 12 months, 8.69% for Last 13-24 months
- **Armagh**: 8.73% for Last 12 months, 7.06% for Last 13-24 months
- **Dungannon**: 9.30% for Last 12 months, 8.13% for Last 13-24 months
- **Enniskillen**: 7.38% for Last 12 months, 5.83% for Last 13-24 months
- **Newry**: 8.93% for Last 12 months, 6.06% for Last 13-24 months
- **N. Ards**: 14.59% for Last 12 months, 8.20% for Last 13-24 months

#### Annual TB herd incidence by DVO (Northern Region)

- **N.Ireland**: 8.52% for Last 12 months, 3.81% for Last 13-24 months
- **Ballymena**: 8.59% for Last 12 months, 5.86% for Last 13-24 months
- **Coleraine**: 9.28% for Last 12 months, 4.77% for Last 13-24 months
- **Mallusk**: 6.06% for Last 12 months, 6.53% for Last 13-24 months
- **L’derry**: 8.20% for Last 12 months, 8.02% for Last 13-24 months
- **Omagh**: 8.52% for Last 12 months, 8.02% for Last 13-24 months

Printed on 15/08/2017
New TB Reactor Herds: January 1995 to June 2017

- Number of new TB reactor herds
- 12 month moving average

2017 167 98 197 215 159 21 66 289 209 201 1622

A herd is defined as being a TB reactor herd if it had at least one TB reactor animal in that month and no TB reactor animals during the previous 12 months.

A TB unique herd breakdown is defined as a herd which has had at least one TB reactor during the specified calendar year irrespective of any TB reactors during the previous calendar year.

A TB reactor animal is defined as an animal where the manual interpretation field for a skin test is positive ('P') with the first test date being taken as the time at which the animal became a reactor. Animals with lesions at routine slaughter ('LRS') are not taken into account.
